

REMARKS

I. Claims Status

Upon entry of the foregoing amendment, claims 1-59 are cancelled and claims 60-81 are pending. Claims 23, 26, 28, 30-34, 37-40, 44, 46-50 and 57-59 are sought to be cancelled without disclaimer thereof or prejudice thereto any of the subject matter contained therein. Applicants respectfully request entry of new claims 60-81. These claims find support in the specification and original claims. Applicants point out that new claims 60-70 track original or previously presented claims 23, 28, 31-33, 46-49 respectively; new claims 71-76 track original or previously presented claims 34, 37-39, 50 and 57 respectively; and new claims 77-81 track original or previously presented claims 40, 44, 50, 58 and 59 respectively. New claims 60-81 do not present any new matter, and their entry is respectfully requested.

II. Statement of the Substance of the Interview of March 13, 2007

Applicants have reviewed the Interview Summary mailed on March 13, 2007 and believe that it accurately describes a statement of the substance of the interview. During the interview, the Examiner asserted that the specification failed to provide adequate written description support under 35 U.S.C. § 112, first paragraph for the amended claims of the February 9, 2007 Response to Final Office Action. Although Applicants do not agree with the Examiner, the claims have been amended to be modeled after Example 14 of the TC-1600 guidelines, as helpfully suggested by the Examiner.
